## BUDGET IMPLEMENTATION AND ANALYSIS

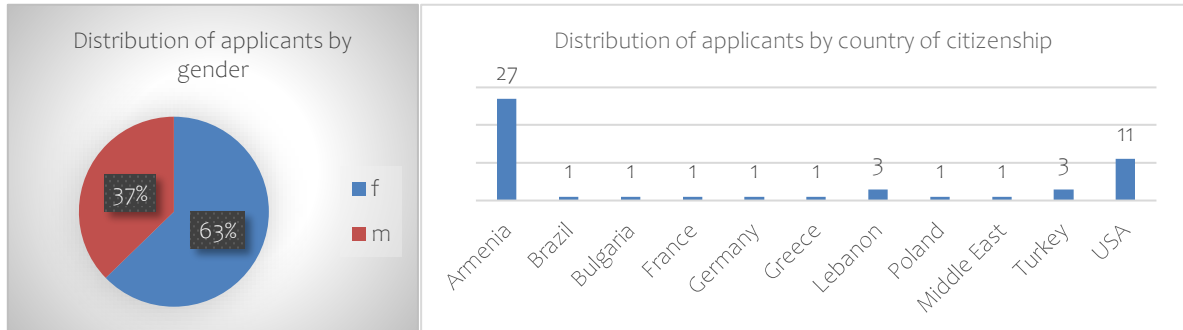

### 1. [Armenian Studies Scholarship](#)

The Armenian Studies Scholarship application cycle was open from 1 March to 15 May; its aim is to promote research in Armenian Studies by students and researchers of any nationality pursuing a Master's, a PhD or a Post Doc in recognized universities around the world. The goal is to foster better understanding and knowledge about the most recent developments in Armenia and Nagorno-Karabakh, as well as the Diaspora, and to build stronger theoretical, empirical and/or applied research.

In 2023, as in 2022, research proposals from the social sciences that focused on the contemporary (i.e., post-Soviet) period were accepted in this scholarship category, in line with the Foundation's policy of privileging research on current issues. Research projects with high policy relevance and practical use were especially welcomed and the following disciplines were particularly encouraged: Political Science/International Relations, Sociology, Anthropology, Current History, Social Psychology, International Law, Human Rights, Peace and Conflict Studies, International Development and Humanitarian Studies, Diaspora, Refugee and Migration Studies, Cultural Studies, and other closely related disciplines.

In 2023, the Department received 51 applications, 33% of these were received on the last day of application.

Decisions were made on the following criteria:
