## Open call for two curator residencies

**The Calouste Gulbenkian Foundation and the Cité internationale des arts announce their collaboration and the launch of a research residency programme for curators of all nationalities residing in Portugal and with five years of professional experience.**

The aim of this programme is to facilitate mobility and support research and the expansion of the professional network of curators rooted in the Portuguese scene.

This scheme is co-constructed by the Calouste Gulbenkian Foundation and the Cité internationale des arts (Paris). The partners are committed to supporting the project of each winner by allowing them to benefit from privileged support, professional networking, and a three-month residency in Paris, accompanied by financial support.

Following this call for applications and the meeting of a jury of professionals from the world of art and culture, two applications will be selected.

# Application conditions

## CONDITIONS

The residency programme is open for curators that:

- Live and work in Portugal ;
- of all nationalities ;
- that can prove at least 5 years of experience in curatorial practices.

Collective applications must be made in the following manner, depending on the case

- the project is common: a single application must be submitted on behalf of both artists
- the projects are different: two separate applications must be submitted (please indicate in the «miscellaneous remarks» section at the end of the form that you wish to share a studio and specify the name of the second applicant).

Successful applications for collective projects involving more than two artists are exceptional, given the number of studio flats available under the programme. They will result in the unique allocation of a live-in-studio, a single living grant and a single production grant.

## CRITERIA

The applications will be examined by a multidisciplinary jury composed of qualified personalities from the French and Portuguese creative sectors.

In addition to evaluating the professional background, the members of the jury will pay particular attention to

- the artistic quality of the application and the research project presented;
- the arguments presented on the need for this residency perspective in France and at the Cité internationale des arts;
- the planned working protocol and the contacts or partnerships already established with a view to developing a residency project.

## THE RESIDENCY

With a surface area ranging from 25 to 50m<sup>2</sup>, the studio apartments are designed to combine production and daily life. They are composed of a working room, a kitchen, a bathroom and a night space. A workshop can accommodate up to two adults and a child up to 7 years old.

Unfortunately, the proposed accommodations do not meet the current standards of accessibility for people with disabilities, and we are working on this for the future.

*For any request concerning the accessibility of the spaces of the Cité internationale des arts, we are at your disposal.*

## FINANCIAL SUPPORT

The laureates will benefit from:

- Tailor-made support, meeting and networking organised by the partners of the residency programmes
- The provision of a live-in-studio on the Marais site of the Cité internationale des arts;
- A living allowance (dedicated to travel, catering and insurance costs) of 1000 euros per month, including tax;
- A research/production grant of 1000 euros (including tax);
- A travel allowance of 250 euros (incl. VAT) between home in Portugal and the Cité internationale des arts, upon presentation of proof of payment.

## WHERE TO APPLY

Complete the form with your Google account [HERE](#)
